yannicklarvor

FullStack Senior Java Developer for 10 years.

Specialized in digital transformation and the Spring Boot Framework.

10Years
of
experience

including 7 years in Switzerland at **Smartwave SA**

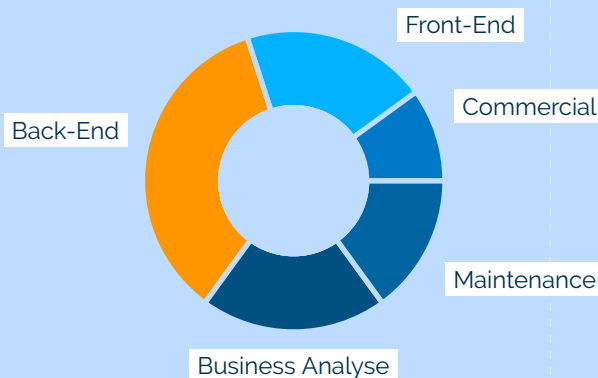

I am looking for a new professional challenge in the banking domain in order to evolve as a project manager.

SKILLS

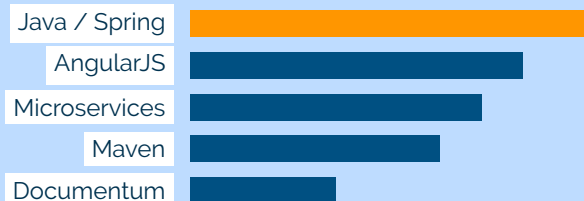

I acquired solid technical skills in web application development.

LANGAGES

French (mother tongue)
English (fluent)
Italian (basics)

My latest projects involved mainly **Java 8** and **AngularJS** with a significant use of multiple **Spring** modules. They are highly complex due to a large number of integrations with other systems.

I regularly use Maven, Git and Jira.

I am strongly interested in improving my knowledge of DevOps and Project Management.

HOBBIES

Basketball
Association
Computing
Cinema
œnology

I am passionate about basketball and have been playing for 20 years at the departmental level.

I help a small local association (**Le Marlio'Z Café**) to manage their digital communication.
